

Guidance for Careers and Higher Education

Careers

Access Southampton

<http://access-southampton.co.uk>

- Access Southampton offers impartial and consistent careers guidance for students who are in the process of making choices about their futures.

National Careers Service

<http://nationalcareersservice.direct.gov.uk>

- This service helps you to explore career profiles and see what qualifications and experience you will need for certain careers.

I Could

<http://icould.com>

- This website shows you a range of careers with real stories from people in a variety of careers.

Career Companion

<http://careercompanion.co.uk>

- Career Companion offers careers guidance and advice for students.

Creative Skill Set

<http://creativeskillset.org>

- This website provides career profiles, advice and information for people looking for jobs in media, fashion, game design and other creative areas.

Careers Box

<http://careersbox.co.uk>

- Careers Box is filled with careers related films, information and options. It provides a great insight into different careers.

All About Careers

<http://allaboutcareers.com>

- This allows you to explore, search and understand more about each career sector.

Higher Education

Which? University

<http://university.which.co.uk>

- Which? offers careers information and advice to help you choose the right A Level subjects and narrow down your higher education options.

UCAS

<http://ucas.com>

- This is the Universities and Colleges Admissions Service. It displays the entry requirements and specific grades you will need to achieve to get into university, as well as course details and advice to help you choose the best path.
- It is also where you will go to apply for university and keep track of your offers.

What Uni?

<http://whatuni.com>

- What Uni? provides information about university open days, allows you to order prospectuses and shows student rankings of institutions.
- If you create a free account, What Uni? can also track where you are on the 'Sixth Form Timeline', which lets you see your position in the university application process and helps to ensure that you apply on time.
- And if you don't know which course you would like to study at university, they also have a useful calculator. You can enter your subjects and predicted grades and the calculator will suggest universities and recommend degrees.

Best Course 4 Me

<http://www.bestcourse4me.com>

- This website allows you to enter the subjects you are studying at college in order to show you the different university courses they can lead to, showing you options you may never have considered.
